

**FOR IMMEDIATE RELEASE      September 10, 2012      Carthage, NC.** The Moore County Public Works Department is scheduled to start the installation of a new waterline in the vicinity of Midland Road and the traffic circle in early September. The project is expected to be completed by the end of the year. This will include the installation of new water mains along Highway 211, the traffic circle, Midland Road, Hillard Road, Thorne Road and Windmere Road in Pinehurst.

While the project may require some roads to be temporarily closed to through traffic, access to homes for local traffic will be maintained. Lane closures will be limited to the hours of 9 a.m. to 4 p.m. on weekdays. Also, during the time that work is being performed, water service may be interrupted to residences; however, limiting water usage will assist the construction crews as they perform their work.

Project questions should be directed to Moore County Public Works at 910-947-6315.
